# Study on financial services provision and prevention of financial exclusion

## COUNTRY REPORT STAGE I: QUESTIONNAIRE

Please, answer directly in the questionnaire

PRELIMINARY QUESTIONS	
Q.1. Existence of financial exclusion problem, public debate and data	
Q.1.1.1.: Is there a problem of financial exclusion in your country (in broad terms, for details see Q.2.)?	
To answer to this question, please refer to point 1 of the overview paper (OP) concepts and definitions	
No ☐ Yes ⊠	
Q.1.1.2.: If yes, please <u>describe below</u> whether this arises because financial services providers do not meet the needs of certain groups of people or whether there are some groups of people who choose not to use financial services (eg: because they think they would be inappropriate to their needs or they would be refused access):	
There is a problem for people with low income (eg. :students, retired persons) to get credit because they do not meet requirements of credit institutions. Elder people refuses to use such services as internet banking, for they think they would not be able to use it.	
Q.1.2.: Is there currently a public debate on financial exclusion in your country?	
Yes ☐ No ☐ Debate limited to specific issues or involving only few parts ☒	
Q.1.2.1.: If yes, please give brief details of what this covers:  People after privatization of banks and closing of their branches, in some urban areas have financial exclusion do to geographical reasons. They write requests to local municipalities to help them to establish a bank branch in their hometown.  Though banks act as commercial institutions, and they policy is not to establish branches in non profitable areas. In some cases, credit unions or their branches, become an alternative for financial inclusion	

Q.1.2.2.: If yes, who are the players involved in that debate in your country?
National government  Regional government  Municipalities  Commercial financial service providers and their associations  Not-for profit financial service providers  Consumers' associations  Academics  Non governmental agencies  Others (describe):
Q.1.3.: What are the sources of data available related to the levels of financial exclusion (or to financial inclusion) in your country?
Please, send an electronic or paper version of all relevant the data/report(s) to RFA if not yet listed in the bibliography available on finincl.eu
No specific reports are available on financial exclusion in Lithuania. According to the regulation of European Commission No. 215/2007, 28 <sup>th</sup> of February, 2007, Lithuanian Department of Statistics will perform a survey on Financial Exclusion and Overindebtedness in 2008. This survey will not be periodical.
Q.1.3.1.: Sources of data available related to overall levels of financial exclusion:
Official European data details on periodicity: Official national data details on periodicity: Official regional data details on periodicity: Academic reports details on periodicity: Financial sector reports details on periodicity: Non governmental organization reports details on periodicity: Others (describe):
Specify how the exclusion is measured/estimated:
Q.1.3.2.: Sources of data available related to levels of banking (i.e. transactions) exclusion:
Official European data details on periodicity: Official national data details on periodicity: Official regional data details on periodicity: Academic reports details on periodicity: Financial sector reports details on periodicity: Non governmental organization reports details on periodicity:

Others (describe):	
others (describe).	
Specify how the exclusion is me	easured/estimated :
Q.1.3.3.: Sources of data available	ble related to levels of credit exclusion:
Official European data	details on periodicity:
Official national data	details on periodicity:
Official regional data	details on periodicity:
Academic reports	details on periodicity:
Financial sector reports	details on periodicity:
-	reports details on periodicity:
Others (describe):	
Specify how the exclusion is me	pagurad/actimated :
specify now the exclusion is me	asured/estimated.
Q.1.3.4.: Sources of data availab	ple related to levels of savings exclusion:
Official European data	details on periodicity:
Official national data	details on periodicity:
Official regional data	details on periodicity:
Academic reports	details on periodicity:
Financial sector reports	details on periodicity:
	reports details on periodicity:

NATIONAL CONTEXT	T OF FINANCIAL SERVICES
Q.2. Banking transactions	

Q.2.1.: Is there a problem of financial exclusion regarding transaction banking services in your country?  *Refer to point 1.1.1. of OP*
yes 🖂 no 🗌
Q.2.1.1.: Is the distinction between unbanked/marginally banked people relevant to your country?
(Unbanked people are the people with no banking relationships at all Marginally banked people are people with a deposit account that has no electronic payment facilities, no payment card or cheque book and no means of remitting money, OR people who do have these facilities but make little or no use of them.)
Yes 🖂 no 🗌
If that distinction is not relevant in your country, <u>explain</u> :
Q.2.1.2.: Are they people in your country that are
- Unbanked yes ☐ no ☐ - Marginally banked yes ☐ no ☐ - Informally served (that for some services rely on alternative financial providers which charge high costs, offer little information and poor terms with reference to the consumer rights)?  yes ☐ no ☐
Q 2.1.3.: Which types of banking service are there particular difficulties accessing (tick relevant boxes)?
- Receive regular electronic payment of funds such as wages, pensions or social assistance  - Convert cheques or vouchers into cash  - Store money safely until it needs to be withdrawn  - Pay for goods and services other than in cash  - Pay bills electronically (via self-banking or desk officer )  - Make remittances  - Receive regular bank account statements
Q 2.1.4.: Which types of banking service are there particular difficulties to use (tick relevant boxes) ?
- Receive regular electronic payment of funds such as wages, pensions or social

- Receive regular bank account statements  Q.2.2.: Where do people go to access to those services if they are refused by/ have difficulties accessing/choose not to use mainstream providers?  Mainstream providers are all institutions legally recognized as banks: savings banks and postal banks and public owned banks may, in that respect, be considered as mainstream providers  Describe briefly:  - The kind of alternative providers existing in your country (not for profit and/or commercial providers) and (if possible) some indications of the number of customers and/or number of service outlets they have  - The kind of services they provide (cheque cashing, bill-payment, remittances services)  - How their costs and terms and conditions differ from those in mainstream market commercial banks  Credit unions are commercial providers of credit, deposit, bill-payment, remittance services, There are 66 credit unions in Lithuania with ca. 73 000 members. The cost of services they provide is usually higher than mainstream providers'.  Some bill-payments may be done in (newspaper kiosks'). The net of these kiosks is very dense and costs are lower than in banks. This type of service is quite new, so there is no information about number of customers.  Please give full details of data source(s) for our bibliography and briefly describe the findings:  Statistical reports on credit union activities may be found on the website of Lithuanian Central Bank: www.lb.lt.  Research on credit union activities were made by:  1. Levisauskaitė K., Kaupelytė D. Credit unions in Lithuania, their regional-development and perspectives // Organizaciju vadyba: sisteminiai tyrimai, 2003, Nr. 33, 60-383, ISSN 1392-1142.  2. Levisauskaitè K., Kaupelytė D. Reršvs M. The Role Of Cooperative Financial Institutions in Development of Knowledge-Based Economy Through Promotion Of Innovative Processes In SMEs // International Scientific conference Knowledge -	assistance  - Convert cheques or vouchers into cash  - Store money safely until it needs to be withdrawn - Pay for goods and services other than in cash  - Pay bills electronically (via self-banking or desk officer )   There are problems for elder people to use internet banking.

- Q.2.3. How important is the role of savings banks and/or postal banks in meeting the needs of people to access to those services?

There are no savings banks or postal banks in Lithuania.

Describe briefly:

- The savings banks/postal banks/public owned banks existing in your country
- The kind of services they provide (cheque cashing, bill-payment, remittances services...) and (if possible) some indications of the number of customers and/or number of service outlets they have
- How their costs and terms and conditions differ from the rest of the mainstream market commercial banks

Please give full <u>details of data</u> source(s) for our bibliography and briefly <u>describe</u> the findings:

Q.3. Credit

Mise en forme : Puces et numéros

Mise en forme : Puces et numéros

Mise en forme : Puces et

Q.3.1.1.: Is there a problem of some people not having access to credit/choosing not to use credit in the prime credit market in your country?	
<b>Prime credit market:</b> low cost credit with good terms and conditions available to people with medium and high incomes	
Refer to point 1.1.3. of OP	
yes No	
If yes, what are the <u>main barriers</u> : <u>Main barrier is mainstream credit provider's</u> requirement of certain official income level.	
Q.3.1.2.: Is there a problem of some people choosing deliberately to subscribe a credit in the sub-prime credit market in your country?	
Sub-prime credit market: credit with high risk, high interests and poor conditions	
Refer to point 1.1.3. of OP	
yes No	
If yes, what are the reasons for them to do so? Some persons may have income	
required by credit providers, but not official,	Supprimé : ¶
Please give full <u>details</u> of <u>data source(s)</u> for our bibliography and briefly <u>describe</u> the findings:	Supprimé : ¶
Q.3.2.: Where do people go to access to credit if they are refused by or choose not to use the prime credit market?	
Describe briefly:	
- The kind of alternative credit providers existing in your country (not for profit	

- The kind of alternative credit providers existing in your country (not for profit and/or commercial organizations, sub-prime lenders, ...) and (if possible) some indications of the number of customers and/or number of service outlets they have
- The services they provide
- How their costs and terms and conditions differ from those in the prime credit market

Credit unions. More details in Q2.2

Alternative credit institutions like AM Credit which provides housing loans. There are 2 offices of this company in Lithuania, number of clients is not announced officially. The price of services is higher than mainstream providers'.

Q.3.3.: As far as you are aware of, is there a problem of illegal lending in your country?

Yes X
No 🗌
Limited to specific cases/areas
Elimited to specific eases/areas
If yes, please <u>describe</u> what you known about illegal lending and give full details of <u>data</u> source(s) for our bibliography (if existing)
613( 6)
There is problem of personal lending which is not legal. The role of such type of lending is decreasing. In newspapers can be found advertisements of this type of
<u>lending.</u>
Q.3.4.: Is there a usury rate ceiling in your country?
v
Yes  N- M
No \( \sum_{\text{The sectors is no soleted by a consectition in the months.}} \)
The rate of return is regulated by competition in the market.
Q.3.4.1.: If yes, please give <u>details</u> of the product(s) concerned, and the ceiling that
applies to it/them?
0.2.4.2. I. 41
Q.3.4.2.: Is there a concern of rate ceiling as a cause of credit exclusion in your country
or other criticism?
V \
Yes L
No L
Smarifini
Specify:
Q.3.5.: Credit referencing and files registering (regarding the dishonoured cheques or
other payment instruments) in your country
Q.3.5.1. Is there a positive credit database ( listing all outstanding credits) implemented  At national level? Yes no
If yes, is it Publicly run or privately run
Voluntary or mandatory
There is a database for loans higher than 50 000 Litas. There is a project to establish
Credit Biuro, which would collect positive and negative information about loans
from all utilities, telecommunication services and bank services providers.
➤ At banking sector level? Yes \(\sigma\) no
If yes, is it Publicly run or privately run
Voluntary or mandatory
ordinary Value interest of the state of the
➤ Individually within each credit provider? Yes ∑no ☐
If yes, is it  Publicly run or privately run
Voluntary or mandatory

> At another level (explain):	
Q.3.5.2.: Is there a negative credit database (listing details of bankruptcies/judgments which are normally publicly available information as well as detacredit commitments that are in default) implemented	
➤ At national level? Yes ⋈ no ☐  If yes, is it Publicly run ☐ or privately run ⋈  Voluntary ⋈ or mandatory ☐	
➤ At banking sector level? Yes ☑ no ☐  If yes, is it Publicly run ☐ or privately run ☑  Voluntary ☑ or mandatory ☐	
➤ Individually within each credit provider? Yes ☑ no ☐  If yes, is it Publicly run ☐ or private  Voluntary ☐ or mandatory	
> At another level (explain):	Supprimé : ¶
Q.3.5.3.: Are there rules limiting the time span of the negative database men to avoid the risk of lifelong exclusion?	
Yes No Specify: Specify: By default persons should be deleted from the database as soon as they repay though in some cases happen, that credit providers do not delete the information database.	
Q. 3.5.4.: Are positive and negative information contained in the same database.	ase(s)?
Yes No No	
Q. 3.5.5.: Do the mentioned registers/files cover all the financial institutions credit transactions or are they limited to some categories? - Specify:	and all the
As participation is voluntary, not all credit institutions participate in the of databases. Inclusion to the database depends on the internal decision institution and it's creditability as a credit institution (e.g. credit unions have access to the database of Lithuanian Central bank for loans higher Litas).	of credit still do not
Q.3.6.1.: How is responsible lending ensured in your country?	

It is ensured by a law yes no law it is ensured by a code of conduct within the banking sector yes no lat is implemented individually within some prime credit lenders yes no lat is implemented individually within some alternative credit providers yes no lat is not at all organized in my country yes no laternative credit providers yes laternative credit provi
Specify:
Some prime credit lenders have a code of Ethics, which sets general principles of responsible lending. Though in most cases credit providers obey not the rules for responsible lending, more they monitor over the quality of loans portfolio.
Q.3.6.2.: Describe briefly the <u>principles</u> of the existing measures regarding responsible lending
The principles of responsible lending set in the codes of Ehics set the non-discriminatory policies, but mostly they diminish conflicts of interest that could appear between the employees and governing bodies of the banks while using services of credit providers.
Q.3.6.3.: Are the above mentioned registers/file part of a responsible lending strategy or do they meet mostly other needs? - <u>Specify</u> :
Q.4. Savings
Q.4.1.: Is there a problem of some people not being able to open/choosing not to open a savings account with a bank or similar provider in your country?
Refer to point 1.1.2. of OP
yes 🔀 no 🗌
If yes, what are the main barriers:
Slightly less than half of residents do not have funds left after all expenses. Among elder people there is still mistrust of credit institutions after bank crisis in 1995.  Interest rate of bank deposit is lower than return provided by other investments.
Q.4.2.: Is there a problem of some people choosing not to make their savings deposits in a bank or similar provider in your country?
Refer to point 1.1.2. of OP
yes No
If yes, what are the main reasons:
Same as Q 4.1

Females

At work

Unemployed

Males

- Q.4.3.: Where do people go to make savings deposits when they unable to or choose not to open a savings account with a bank or similar provider?
  - Describe briefly the kind of alternative savings providers (non profit or commercial organization, informal savings groups) existing in your country and the services they provide.

Saving service can be provided by credit unions.

- Describe briefly the other ways people use to make savings when they don't save through a formal or informal provider
- 31 % of residents keep their saving at home and 11% choose to invest in realty.

No X Yes
Q.8.3.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings (extent, who is affected, causes and consequences) and compare them to statements made in the Euro barometer data analysis for your country ( <i>Table 2 levels of financial exclusion in individual EU 15 Countries in O.P.</i> <b>new tables about EU 27 coming soon</b> )
Q.8.4.1.: Do you have any other specific comments regarding the Eurobarometer data analysis for your country ( <i>Table 2 levels of financial exclusion in individual EU 15 Countries in O.P.</i> new tables about EU 27 coming soon )
No ☐ Yes ☑
Q.8.4.2.: If yes, what are your <u>comments</u> ?  The extent of financial exclusion was not measured in details in Lithuania. Not all the causes for financial exclusion are evaluated while measuring access to financial services, so it is difficult to measure the extent of the problem. The only official data are articles in the newspapers, analyzing the problems people face accessing credit or savings at banks or other financial services providers.
Q.9. People most likely to be financially excluded Do read and refer to point 3 of O.P.
Q.9.1.1.: Is there any research describing the types of people most likely to be financially excluded (overall financial exclusion) in your country?
No X Yes

Q.9.1.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Euro barometer data analysis? ( <i>Table 3 in O.P "Types of people likely to be financially excluded in the EU 15</i> new tables about EU 27 coming soon)
Q.9.2.1.: Is there any research describing the types of people most likely to be excluded from banking transactions in your country?
No X Yes
Q.9.2.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Euro barometer data analysis? ( <i>Table 3 in O.P "Types of people likely to be financially excluded in the EU 15</i> new tables about EU 27 coming soon)
Q.9.3.1.: Is there any research describing the types of people most likely to be excluded from credit in your country?
No X Yes
Q.9.3.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Euro barometer data analysis? ( <i>Table 3 in O.P "Types of people likely to be financially excluded in the EU 15</i> new tables about EU 27 coming soon)
Q.9.4.1.: Is there any research describing the types of people most likely to be excluded from credit in your country?
No X Yes
Q.9.4.2.: If yes, please give full details of data source(s) for our bibliography, briefly describe the findings and compare them to statements made in the general Euro barometer data analysis? ( <i>Table 3 in O.P "Types of people likely to be financially excluded in the EU 15</i> new tables about EU 27 coming soon)
CAUSES AND CONSEQUENCES OF FINANCIAL
EXCLUSION  Please, read and refer to point 4 of O.P.
Q.10. Factors affecting difficulty of access or use of financial services in your country

Q.10.1.:Comment on all factors affecting difficulty of access or use in your country	1
Q.10.1Comment on an factors affecting difficulty of access of use in your country	
<u>Use table 6 of O.P.: Factors affecting difficulty of access or use.</u> (ANNEX 1)	
Add in that document other causes of exclusion that exist in your country and comment	
ALL causes relevant to your country.	
Societal factors:	
<u>Liberalisation of markets:</u>	
• Increased competition after privatization of commercial banks has resulted in more	Mise en forme : Puces et numéros
attention paid to all market segments;	nameros
• The was a threat for credit unions to disappear from Lithuania, due to capital	
requirements set for commercial institutions during the integration process to the	
European Union. Although the exception has been made; Demographical changes:	
	Mise en forme : Puces et
<ul> <li>Elder people have more problems accessing financial services, as technologies develop;</li> </ul>	numéros
-	
• Young people, especially students have been excluded from financial services for a long time, though recently the situation changes and their financial inclusion (due to	
increasing competition in the banking market) is been monitored;	
Supply factors:	
• Geographical access and the underdevelopment of telecommunications infrastructure	Mise en forme : Puces et
in regions causes financial exclusion;	numéros
• Risk assessment is still a problem for financial exclusion, as banks have "credit pools"	
where people are not evaluated individually – they are evaluated as individuals	
belonging to a certain "credit pool", this causes financial exclusion;	
Service delivery also causes financial exclusion, especially for older people;	
• Complexity of choice causes financial exclusion, as not all people are educated enough	
to understand financial services;	
Demand factors:	
• Elder people and people living in rural areas have fear of loss of control;	Mise en forme : Puces et
• After banking crisis, people still have mistrust in financial services providers;	numéros
• Poor people, and people who have not official income believe that financial services	
are not for them.	
Q.10.2.: Give full details of the data source for our bibliography, briefly describe the	
findings and compare it to statements made in point 4 of the O.P.	
There is no special research made in this area.	
Q.11. Causes and consequences of financial exclusion	
Q.11.1.1.: Do you have any comments regarding the specific causes and consequences of	4
financial exclusion related to your country?	
To answer refer and compare with the contend of point 4 of O.P	
No Tyes X	
	J

Q.11.1.2.: If yes, describe briefly what are those comments?

The situation changes mainly because of high competition in the financial markets, though all the financial services providers are orientated to the most profitable services of the markets. These tendencies cause the financial exclusion of marginal segments.

Q.11.2.1.: Do you have any data sources regarding the specific causes and consequences of financial exclusion related to your country?

Q.11.2.2.: If yes, please give full details of the data source for our bibliography, briefly describe the findings and compare it to statements made in point 4 of the O.P.

The research on geographical exclusion and credit unions dealing with geographical exclusion:
